WORKING WOMEN IN LARGE CITIES.

The commissioner of the department of labor at Washington, Mr. Carrol D. Wright, has submitted his report regarding working women in large cities. The facts collected in the report have been collected by women agents of the labor department. In substance the report shows that the working women in the great cities are practically girls. The average age in all the cities comprehended is twenty-two years and seven months. The general average age at beginning work is shown to be fifteen years and four months. The average period during which the women have been engaged in their present occupations is shown to be four years and nine months, and that of the 17,427 women interviewed 9,540 are engaged in their first trial at earning their living. Of the whole number, 14,120 are native born. In the foreign born, Ireland is most largely represented, and Germany is next, having 775. Of the native born, 12,904 had foreign-born fathers, and 12,406 foreign-born mothers. A great majority of the women are single, the number being 15,386; only 745 are married, and 1,338 widowed.

The report shows that of the 17,426 who reported their health conditions at the time they began work, 16,380 were in good health, 883 were in fair health, and 183 in bad health. The change in the health condition is illustrated by the fact that 14,554 are now in good health, 2,885 are in fair health, and 489 are in bad health.

In home conditions, 12,020 report themselves comfortable, while 4,693 state that their home conditions are poor, and "poor." In this investigation, says the Commissioner, is poor in deed.

The report further shows that the average weekly earnings by cities is given as follows:

Atlanta \$1.05, Baltimore \$1.18, Boston \$1.54, Brooklyn \$1.75, Buffalo \$2.21, Charleston \$1.22, Chicago \$1.74, Cincinnati \$1.50, Cleveland \$1.63, Indianapolis \$1.67, Louisville \$1.51, Newark \$1.50, New Orleans \$1.31, New York \$1.85, Philadelphia \$1.54, Providence \$1.51, Richmond \$1.33, St. Louis \$1.19, St. Paul \$1.02, San Francisco \$1.81, San Jose \$1.11, Savannah \$1.49; all cities \$1.24.

Mr. Wright makes the statement in his report that "a quarter of century ago women were allowed to enter but few occupations. Now there are hundreds of vocations in which they can find employment. The present report names 342 of them."

Massachusetts society for promoting good citizenship, of which Edward Everett Hale is president, has issued a circular explaining the purposes for which it exists and what its members are expected to do. The society wishes to encourage a more careful study of American history and institutions, our constitutions and laws in comparison with those of other countries.

Members of this society, individually or in an association with each other, in simple local organizations, in clubs or classes, are urged to these studies in a more systematic and comprehensive manner for themselves, and to prompt, direct and assist such studies on the part of others. Let them study the town and the town meeting; let them study the city, the commonwealth, the nation, and international relations. It is by such broad studies of history and of politics that a true civic spirit is chiefly sustained. They are therefore the primary duties of the American citizen, and especially of those who, interested in this movement, desire to promote a more intelligent patriotism and a better public opinion.

It naturally follows from this, says the New York Tribune, that the society also proposes to stimulate interest in the political and social questions of the day and to enforce the duties arising out of the citizenship. It will issue tracts and pamphlets from time to time and will call lectures and debating clubs to its assistance. Every such organization is deserving of the best interest and encouragement, since it not only fails to promote public spirit and patriotism. The broader a knowledge of all governmental systems is diffused, the better for our republican system. The closer the American people study their own country, the better for manifest destiny.

The footsteps of Greely, Nares, and the host of other Arctic adventurers are about to be followed by another expedition. It is to be fitted out in Norway, and will make its way northward during the summer of 1890. The route selected is that by the way of Fiez Josef Land, the scene of the efforts of Feyer and Weyprecht a few years ago. Fiez leader, it is hoped to secure Dr. Frietholm, the gallant young scientist who last year tramped across the snow-fields of southern Greenland. As he is, however, spending the winter in ice-bound isolation on the shore of Davis strait, it is not known whether he will consent to assume such a task. There is a fascination in Arctic explorations that will doubtless continue to draw men towards the North Pole, regardless of peril and the ghastly record of their predecessors, until the secrets of the unknown lands shall be revealed. Up to the present, the highest latitude has been reached by the pluck and heroism of American voyagers. Now let the hardy Norsemen see if they can better our record.

The New York Tribune:—No more striking setting forth of the financial folly of the present treatment of the con-

victs in our state prisons could be made than that contained in Superintendent Lathrop's report on the state account system. The state now owns \$400,769 worth of machinery, and the profits of the labor of the convicts under that system amounted to \$33,000 a month. For six months past the convicts have virtually done no work, and the prisoners have earned \$900! Apart from the blighting effects of idleness on the prisoners, what do the tax payers of the state think of this showing?

It is a pleasant sign that philanthropists are becoming so common that it is a little hard to keep track of them. Here is an announcement of a gift of nearly \$3,000, given by Jacob Tome, of Port Deposit, Md. to fund and support a free seminary and manual training school at that place for 500 boys and girls. Like J. V. Williamson and Daniel Hand, whose benefactions were made known not long ago, Mr. Tome is an old man who wants the pleasure of seeing his money do good before he dies, and he is led to this step by a knowledge from personal experience of the early struggles of the poor.

The stars and stripes are becoming fashionable. The Pennsylvania house has ordered to a third reading a bill requiring the national flag to be displayed over every public school house in the state. There was objection, of course, by democrats, who have the happy faculty of getting on the wrong side of most questions in which that particular flag is involved.

THE WISCONSIN LEGISLATURE.

Considerable Business Introduced This Morning—Brief Session.

Appointment of State Normal Students by Governor Board.

Special to the Gazette.

MADISON, February 5.—The session of the legislature lasted less than an hour this morning, but during that time a large number of bills and petitions were presented. Among the bills introduced in the house this morning were the following:

To print 16,000 copies of the blue books.

To muster in a battery of Light Artillery at Ripon.

Appropriating \$4,000 to the Wisconsin Dairyman's Association.

Appropriating \$5,000 to the Girl's Industrial school.

For humane transportation of stock and to prevent cruelty to milch cows: Governor Board sent in a communication from the governor of Kansas calling attention to the law enacted against beef and pork trusts and suggested similar action by the Wisconsin legislature.

The assembly passed a bill appropriating ten thousand dollars to purchase of stationery for the state of Wisconsin.

In the senate bills were introduced to prevent espionage at elections and to secure more fully the independence of voters; to enforce the secrecy of ballot and to print and distribute ballots at public expense. It does not appear to election for town and village officers, or where there is a provision for registration, or to elections in cities having fifty thousand population or more, or in counties containing such city.

To increase the salary of the Adjutant General to \$2,000.

Governor Board sent in appointments of E. M. Johnson, Walworth county; H. Chandler, Dane county; and E. V. Gay, of Pierce county, normal school regents.

MADISON, Feb. 4, 1889.—Madison is putting on its best colors about these days, and the parties and receptions and teas are numerous, in preparation for Lent, which is near at hand, when they will be under the necessity of putting on sackcloth and low faces, which is a serious matter to Young America.

The last of the course of lectures will be given on Thursday of this week by the Boston Temple Quartette Club.

The State Agricultural Society have held their regular winter meeting this week, commencing to-morrow, and will continue four days, when we expect to hear much from eminent men from several states.

Wednesday afternoon Prof. Goff from the New York experimental station, will speak upon Horticulture. Thursday evening Prof. Craig, editor of the Live Stock and Farm Journal, of Hamilton, Canada, will give an address upon the dairy interests and their relations to the farm and farmers.

We expect the Elmore Gray contested election case to be settled this week as I understand the committee to whom the case was referred is ready to report. This is the fifth week of the legislature and as they have voted to have no new business after the twentieth of this month, we expect there will be plenty of work for them until the close of session. Much opposition is expressed by members to the medical bill and strong opposition from physicians about the state.

There are twenty-seven farmers, eleven lumbermen, eight lawyers, four insurance men, two contractors, two hotel keepers, two physicians, one school teacher, one lead dealer, two bankers, eight real estate agents, two millers, one farmer, one abstractor, one mason, two in general business, one treasurer, one editor, two brewers, one foreman, one agricultural implement dealer, one superintendent fishery, one produce dealer, one iron moulder, one superintendent of poor-house, one brick-maker, one pilot, two builders, one tobacco buyer, one vessel owner, one florist, one manufacturer, one collecting agent, one with no business and one retired, in the assembly.

The senate has six lawyers, three mer-

chants, eight lumbermen, four editors, four farmers, two millers, one physician, one carpenter, one surveyor, one horticulturist, one printer and one grain dealer. I noticed when the members of assembly signed their names on the book forty-eight of them had to put on their spectacles so there are not a great many kids in that body.

Millie fills the bill as speaker if he is a underman and will recognize any member in an instant and tell what district he represents.

A very few of the old members are in this legislature but we recognize Fred Byrne in his old seat. Dick O'Donnell is a prominent figure about the capitol. Social and progressive clubs are numerous and a man is not too particular and re-laid he can find plenty of entertainment, and then the religious societies of the city have united in holding revival meetings commencing next Sunday and will continue two weeks, with eminent help from Chicago.

CRUSHED BY FALLING WALLS.

Six Lives Lost and Eight Persons Hurt in Omaha—Storm at Hastings.

OMAHA, Neb., Feb. 5.—A high wind storm, which began Monday afternoon, did much damage to the city of Omaha. Six lives were lost and eight persons were injured. One of the crushed buildings was of brick and was occupied by P. Boyer & Co., safe dealers, D. C. Dunbar & Co., engravers, and the other, a frame building, was occupied by Edward Olson, a clothing man. The dead are:

EDWARD OLSON, crushed and burned to death.

MIKE MARTIN, found crushed in a shapless mass under a boiler in the basement of the brick building.

THOMAS HOUSTON, an employee of Dunbar & Co.

P. BOYER, senior member of the firm of P. Boyer & Co.

THOMAS LOMBARD, book-keeper for RUDOLPH MITCHELL, an insurance agent.

Thomas Houston died after being taken from the ruins.

The injured so far as known are:

C. H. SILVER, an engraver, shoulder crushed and finger broken.

E. A. PHELPS, an engraver, bruised.

JERRY JACKSON, slightly hurt.

MISS EMMA OLIVER, slightly injured.

CHARLES BLAKE, a draughtsman, injured about the face and will lose an eye.

CHARLES CRASAR, foreman of Dunbar's art department, body bruised, but succeeded in getting out without assistance.

CHARLES STARRIS, slightly hurt.

Mrs. HENGER, fatally hurt.

It is believed that there are no more bodies in the ruins and search has been discontinued.

Destruction at Hastings.

HASTINGS, Neb., Feb. 5.—A wind storm struck Hastings at 11 a. m. Monday, blowing sixty miles an hour and wrecking the old News building and blew in the front of a two-story building on Hastings avenue.

At 12:30 a 100-foot section of the sidewalk in front of the town ward public school building was blown 300 feet and Miss Aldrich and her children were buried under it.

A 10-year-old son of Mrs. Puls was fatally injured and Miss Aldrich's arm was broken and her head hurt. There are doubts as to her recovery. The other children escaped with slight cuts.

The Whole State Visited.

LINCOLN, Neb., Feb. 5.—A heavy gale prevailed all over Nebraska Monday, starting at 2 a. m. at Alliance and reaching Lincoln at about 9 a. m. Considerable damage was done in the western part of the state. Buildings being unroofed and trees blown down. At Arapahoe a number of small buildings were blown down.

Lincoln escaped with a few cornices blown away and a few outbuildings overturned. The storm was an electrical disturbance, many watches and clocks in this city stopping at about 9 o'clock in the morning.

EXPORTATION OF ARMS.

Hayti's Complaint Against the Transportation of Arms.

New York, Feb. 5.—Minister Preston was busily engaged over a collection of documents concerning Haytian affairs at the Westchester hotel yesterday afternoon. Referring to his letter to Secretary Bayard in regard to the discoveries made at this port, the Minister said to a reporter that his purpose was to bring the irregularities to the notice of the Secretary of State so that his government might put a stop to them.

"I have no doubt," he continued, "that the Secretary will take immediate action as soon as he is convinced that the law has been violated. The evidence, too, is plain that the United States law has been completely overridden. It is true that we have no right to interfere simply because American ships have been allowed to bring arms and munitions of war to her ports, for there is no law forbidding Americans to make and export arms. Nevertheless, Hayti claims the right to capture such a vessel, if she can, as a prize of war."

"But the American government violates its own law when it allows an expedition to be fitted out in its ports against Hayti, as was done in the case of the Mercedes, for instance. Hayti, then, has the same complaint against the United States that the latter had against England when the Alabama was fitted out in English ports. It is to bring the matter to the attention of Secretary Bayard that the present investigation has been made, and I have no doubt but that it will be settled amicably."

FOR CALIFORNIA.

In addition to first class round trip tickets to California and Pacific Coast points which are on sale daily, the Chicago & Northwestern Railway company has arranged a series of personally conducted one way second class excursions to California. Persons joining these excursion parties will be provided free of charge with completely furnished berths, including mattresses, curtains, blankets, pillows, etc. in new tourist sleeping cars which will run through without change from Chicago to San Francisco and Los Angeles in charge of experienced conductors and porters the entire distance. The cost of a second-class ticket covers every necessary expense except meals. For tickets and full particulars regarding rates and dates on which excursions will start, apply to Agents of the Chicago & Northwestern Railway.

Terrible.

Two-thirds of all deaths in New York City are from consumption or pneumonia. The same proportion holds for most other cities. Delays are dangerous. Dr. Acker's English Remedy for Consumption will always relieve, and may save your life. Prentice & Evenson, Drugists.

MURDER FROM JEALOUSY.

AND THE MURDERER COMMITS SUICIDE.

A Chambermaid Shot by Her Lover—At the Election Parade the Criminal Record.

CHICAGO, Feb. 5.—John Dempsey, engineer for Hibbard, Spencer, Bartlett & Co., shot and instantly killed Miss Maude McCallan, a chambermaid at the Illinois Charitable Eye and Ear Infirmary, and then committed suicide by shooting himself through the head, shortly after 8 o'clock Monday night, in front of the Westminster Presbyterian church at the corner of Foster and Jackson streets. The only eye witness to the affair was a Miss Patterson, residing at 214 South Peoria street, who was walking closely behind them. She paid no particular attention to them, as they were walking along quietly, when just as they passed the door of the church the man suddenly stepped forward and fired. There was a flash, a report, and the woman fell to the sidewalk. A second report closely followed the first, and the man dropped to the walk.

The ball struck the woman above and behind the right ear. Dempsey shot himself in the left side of the head just above the ear. In each case death must have been instantaneous.

The dead man was John Dempsey, 26 years of age, a native of Scotland, who resides at No. 171 South Green street, was sitting at the supper table when he was shot. He hurried to the door and seeing the two bodies lying on the walk, hastened to the spot, and finding both of them dead called up the patrol wagon, which conveyed both bodies to the morgue.

The cause of the murder is supposed to be jealousy, as in the woman's room at the infirmary was found a package of love letters which were signed Peter Campbell.

The dead man has been employed in the infirmary since a year ago last September as a chambermaid. She has been in Chicago about two years. She came from Canada, where she was a nurse. Her parents are Scotch and live at Blanchard road, Pickwick county, Ontario. The matron of the infirmary says: "Dempsey came to see the girl on Saturday night. He has been calling on her since she came here. If they had a quarrel I have not heard of it. I never heard her say anything about this man. She was a quiet girl and she always attended to her business. We were much attached to her. She was about 35 years old."

Dempsey has been with Hibbard, Spencer, Bartlett & Co. for two or three years as engineer and bore a first-class character for steadiness and sobriety.

ALLEGED JURY BRIBERS.

Unearthing a Conspiracy in Detroit Which Promises to Be Sensational.

DETROIT, Mich., Feb. 5.—The arrest of William W. Langdon Saturday evening for alleged complicity in the scheme to bribe jurors in the Hughes suit against the Detroit, Grand Haven & Milwaukee railroad company brings investigators one step nearer the promoters of the conspiracy.

John Nicholson, the man who stands charged with making offers of money to jurors to give a verdict or disregard the facts in a case, was arrested Saturday, and said Langdon was the person who asked him to "fix" certain jurors. The possibility of a term in the Michigan penitentiary was not a pleasant outlook for Nicholson, and he made up his mind not to stand up and be sacrificed while others equally guilty were going scot-free. He now has an affidavit embodying the charges which he lays against Langdon.

Church Members Indulge in a Fight.

ANDERSON, Ind., Feb. 5.—A factional church fight at Olivett, which has been in court the last three months, culminated in a fight this morning in which Simon Shore, a tough character, was killed. Donahoe, a deacon, with a two-pound weight, Donahoe was probably fatally injured. Shore lately came from Bartholomew county and it is thought he was brought here for the purpose of using his fists in this quarrel. He is under arrest.

Latimer Pleads Not Guilty.

JACKSON, Mich., Feb. 5.—R. Irving Latimer was arraigned on the charge of murdering his mother Monday afternoon and pleaded not guilty. The defense announced that it was not ready for trial in this term of court. Latimer appeared unkempt in appearance, and seemed to have lost his air of bravado.

RACE TROUBLES IN INDIANA.

White Laborers at Marion Endeavor to Drive Out Colored Workmen.

MARION, Ind., Feb. 5.—A riot threatened to prove a serious race war has broken out in this city. A few weeks ago the firm of F. M. Westbrook & Sons, tobacco pickers, imported a number of colored men to work in their factory, claiming that there were no white men here capable of performing the work of stemming and stripping. This action on the part of the company greatly enraged a number of the white workmen, and they sent notices to the colored men warning them to leave town within ten days or receive summary punishment. Threats were also made to burn the factory and the homes of the imported laborers. But little attention was paid to the threats, and Saturday night a lot of men went to the home of Logan Collins, a colored boss, and fired shots at him. Collins procured a revolver and returned the fire, but no one was hurt on either side.

The factory owners say they will not discontinue the negroes, and an outbreak is believed to be imminent.

Twenty-Four Drowned.

LONDON, Feb. 5.—The steamer Nereid collided with the British ship Kilchoan of Dundee last night and both vessels went to the bottom in a short time. Twenty-four persons were drowned, including Captain Manson of the Kilchoan. Nine sailors were rescued, but one of the survivors afterward died. The weather was clear at the time of the collision.

The Spanish mail steamer Remus has foundered the island of Billran, one of the Philippines. All the passengers are supposed to have been drowned.

Attempted to Thaw Out Dynamite.

BUTTE, M. T., Feb. 5.—A Swede named Dalkin, engaged in mining work in this city, attempted to thaw out two sticks of dynamite by placing them on a stove. It resulted in the blowing of Dalkin, three comrades, and the furniture in the room through the doors and windows of the house. No one was killed, but all were severely injured.

If you are going west bear in mind the following facts: The Northern Pacific Railroad operates 187 miles, or 87 per cent. of the tire railroad mileage of Montana; spends territory with its main lines from east to west; is the short line to Helena; the only Pullman dining car line to Butte; and the only line that reaches Miles City, Billings, Bozeman, Missoula, the Yellowstone National Park and, in fact, the tenets of the cities and points of interest in the territory.

The Northern Pacific owns and operates miles or 76 per cent of the railroad mileage between Seattle, the main line extending from Idaho and via Spokane to Portland, Tacoma, Yakima and Ellensburg, through the center of the territory to Tacoma and Seattle, and from Tacoma to Portland. No other transcoast line connects Seattle and Portland, although the Puget Sound Navigation Company has a small steamer service between the two cities. The Northern Pacific Territory Ten-day stop-over privileges are given on North Pacific second class tickets at Skokan Falls and all points westward, allowing intending settlers an excellent opportunity to visit the country before settling, curtailing the expense of paying local fares en route to point.

The Northern Pacific is the shortest road from Seattle to Tacoma by rail, connecting by Mt. Rainier, and to Portland, by Astoria.

In addition to being the only rail line to

CHICAGO TO CALIFORNIA.
Without Change of Cars.
The Santa Fe Route is now running a Pullman vestibule Sleeping Car from Chicago to San Diego, via Los Angeles, without change. The train leaves Dearborn Station, Chicago, every night at 11 o'clock. This is a great attraction and an unequalled accommodation for passengers. Office, 212 Clark street, corner Adams.

Sympathy for Father McFadden.
DUBLIN, Feb. 5.—Father McFadden, who was arrested Sunday at Gweedore, County Donegal, at the time Police Inspector Martin was killed, was taken to Letterkenny under a strong escort Monday. A crowd at Letterkenny cheered the priest on his arrival there. The military charged the crowd with fixed bayonets and dispersed it.

Burned to Death While Drunk.
LAPORTE, Ind., Feb. 5.—Frank Ledyard, a farmer of Springfield township, was burned to death in his dwelling, which was destroyed by fire last night while his wife and children were at church. Ledyard had been drinking heavily during the afternoon and was intoxicated. It is supposed the fire was caused by his dropping a lamp and that he was too drunk to escape from the house.

800 THOROUGHBREDS.

THESE MAKE UP THE STRING OF MR. WILL H. RAYMOND.

Eight hundred thoroughbreds. Quite a stable, isn't it? And that is the number of fine horses that W. H. Raymond, who is now spending a few days in this city calls his own.
Mr. Raymond's home is in Virginia City, Montana. When he went to Montana it was as captain of a mule team. Twenty years ago he secured a ranch, and went into the business of raising roadsters for the eastern market. Since then he has extended the ranch until it now includes one hundred and forty square miles. Wilke's blood has been retained as the predominating strain, and by the methods now used a horse can be raised ready for the market at an expense of little over five dollars a year. For one year the colts are kept in a plot by themselves, these are turned out to graze on the bunch grass that covers the ground throughout the year. All the care needed after the first year is that of one man to each herd.
Mr. Raymond came to this city with a car load of roadsters, and has disposed of nearly the entire shipment. Seven will go to a Chicago laundry and others to various cities in Wisconsin.

OBITUARY MENTION.
LYMAN DEARBORN.
Lyman Dearborn, father of Mrs. Annes P. Pritchard, was brought to this city for burial last evening. Funeral services were held by the Rev. Joseph Waite this morning, and at the close the remains were borne to Oak Hill cemetery for interment. The pall bearers were, Messrs. James Harris, S. L. James, S. Holdrege and L. C. Brownell.

Mr. Dearborn died at La Crosse, Kan., January 31st. He was born at Pittsfield, New Hampshire, October 15th, 1811 and moved from Concord, New Hampshire, in 1855 to Janesville, where he resided until 1870, when he removed to La Crosse, making that his home until the time of his death. He will be well remembered by the older residents of Rock county. He leaves a wife and two children, Mrs. Pritchard, of this city, and Chas. H. Dearborn, of Denver, Colorado.

FASHION NOTES.
Roman red velvet is a favorite fabric for evening wear.
Jeweled aigrettes are worn in the hair with evening dress.
Tea gowns are decked with any variety of garnitures and ornaments of jewelry.
Black monkey, Persian lamb, lynx, seal and black and blue fur are all popular.
Tea gowns of rose-colored or pale apricot camel's hair are very effective and quite popular.

A glove with a back of green, red or black plush and a palm of calfskin is worn in London.
The novelty in muffs is made of dark outer, fur-lined and trimmed with imitation cut-bean's heads.
Artistic tea gowns, cut after the medieval fashion, with corset waists and full skirts, are made of soft and lustrous materials.

Rocco necklaces, Greek intaglios, Bulgarian silver jewelry, Roman shoulder clasps, and Franciscan girdles are seen on evening toilets.
The newest stationery is what is called "Bronzed note," and is blue gray in tint, with monogram or some other device stamped in cream white or pearl.
Canary yellow satins are made into elegant ball dresses. When worn under gaslight these dress out decollete, present a rather startling appearance.

A new style of cuff is called "Cromwellian," and is very becoming to slender-armed women. It is fashioned after the manner affected by the Puritans.
The "Patti" jacket is popular in London and Paris. It is made in simple coat fashion and made of fur, Krinoline, or heavy brocade. The sleeves are in the close-cuff shape.
Fur toques are made in the guise of bonnets. With them are worn scarves of silk, Spanish lace two and a half yards long, which pass around the crown to the back and are then carried to the front and tied there.

Some very handsome carriage wraps of Lyons velvet have broad, continuous, fronts being in jacket shape over glove-fitting vests of seal or dark leather fur. The coat-tails at the back are lined with plush and there are narrow fur bands on the collar and cuffs.
Some of the new "art dresses" made after the fashion of the flowing garments of East Indian princesses, are of soft Tibetan wools and Bengaline silks, with narrow plaited fronts and deep skirts. At the foot of the gown is a border of silk, gold, and silver in Indian devices.

WHAT THE ASSOCIATION DID.

Members of the Building and Loan Association Review the Year's Work.

A Very Satisfactory Showing Made—Last Year's Officers Re-elected.

President S. B. Smith called to order a meeting of one hundred and fifty Building Association stockholders at Leppin's Hall last night. The meeting was to review the association for the past year. After the reading of the minutes and of the report of Treasurer C. B. Conrad, attention was given to the report of the secretary, A. P. Barnham, which showed that on the first series of stock twenty-four monthly payments had been made and that the present value of a share of stock was \$14.03, the profit being 2.03. On the second series with twenty-one payments the present value and profits were \$12.06 and \$1.56, on the third series with eighteen payments, \$10.14 and \$1.14; on the fourth series with fifteen payments \$8.23, and \$79; on the fifth with twelve payments, \$6.56 and \$56; on the sixth with nine payments, \$4.93 and \$3; on the seventh with six payments, \$3.31, and \$3.31, and on the eighth with three payments, \$1.76 and \$2.26. The report was endorsed.

WHAT THEY ARE DOING.
OGDEN H. FETHERS AND OTHER WISCONSIN MEN AT WASHINGTON.
A correspondent in speaking of the Wisconsin people who visited that place last week states: "Among the Wisconsin people who have been seeing the sights at the capital during the week may be mentioned three of the Badger state's well known lawyers, Jos. V. Quarles, of Racine, Ogden H. Fethers, of Janesville, and E. E. Chapin, of Milwaukee, acknowledged to be three of the handsomest men in the state. Mr. Chapin's style of beauty is somewhat different from that of Quarles and Fethers, being out on a more generous and democratic pattern and of a rustic and poetic grandeur. Fethers is the real beauty of the gallery to those who tastes run to the blonde style in lawyers. Quarles is on the brunette order of architecture and is the most dashing in appearance of any of Wisconsin's legal luminaries.

Quarles and Fethers dropped in incidentally. Just going through and stopped to see if anything was needed to smooth the pathway of the incoming administration. Chapin just dropped in to see what could be done to let the outgoing administration down easy. It is understood that he objects to going into official partnership with any republican lawyer just at this time, particularly if the lawyer is of the ambitious order.

A NEW NUMBER.
A new number of "The Season" is at hand—brilliant as usual.
"The Season" is a first-class ladies' Fashion Magazine. Each number contains about 170 illustrations of the new Paris fashions and the most elegant designs in fancy work, embroidery, crochet and needle-work; plain sewing and lace work; lace stitch on muslin, cambric and tulle, etc.; Irish point lace, darned on tulle, flageon on linen, etc.; a variety of designs in rag-work (gating netting, knotting and frame work); pillow lace; paper, wood and feather flowers; mosaic pattern and fancy work in all its branches, three large colored plates; two historical or national costume pictures; a pattern set with about twenty flat paper patterns; a richly illustrated review of novelties; initial letters, monograms and alphabets, etc. The information given is clear, plain, comprehensive and practical.

THE WEATHER.
At seven o'clock this morning the thermometer indicated 6 degrees below zero. Clear with north wind. At one o'clock p. m. the register was 1 degree above zero. Clear with north wind. For the corresponding hours one year ago the register was 10 and 17 degrees above zero.

ART WELL APPLIED.
By the Franville Enterprise.
The party of Mr. Stevens a number who have hardly tasted meat this year are to-day regarding themselves with beef steak.
"For there was never yet a philosopher that could endure the toothache patiently." Perhaps not—but there's little wit in enduring it at all, when one bottle of Salvation Oil will cure it.

THE BOARD OF EDUCATION.
BRIEF SESSION OF THE COMMISSIONERS HELD LAST EVENING—THE BUSINESS CONSIDERED.
The board of education held their regular monthly meeting last evening, those present being President Sutherland, Clerk Metcalf, Commissioners Knapp and Wilson.
The reading of the journal of the last meeting was dispensed with.
The monthly statement of the city treasurer, showing that there was a balance of over \$10,000 now in the school fund, was read and placed on file.
Several miscellaneous bills for labor and supplies were referred to the auditing committee, found correct and ordered paid.
Superintendent Keyes made his monthly report, showing the schools to be in a flourishing and prosperous condition.
Supt. Keyes read the following letter from Prof. Stearns, which explains itself:
UNIVERSITY OF WISCONSIN,
DEPT. OF EDUCATION, AND STATE OF WISCONSIN,
MADISON, Wis., Feb. 1st, 1888.
Supt. C. H. Keyes, Janesville, Wis.:—
DEAR SIR:—At the last meeting of the Faculty of this University, the new classical course of the Janesville High School was examined and the faculty unanimously voted to accredit the school for all the courses. The officers and teachers of the school merit congratulation at the marked extension in the range of instruction in the school which has been attained within a few years.
With sincere regards,
Very truly yours,
J. W. STEARNS.

CLARK METCALF STATED THAT THE ENCYCLOPEDIA ordered by the board had been received, the cost being for the complete set including the annuals, \$142. He also stated that the other books ordered by the board had been purchased.
Clerk Metcalf reported that several of the privy vaults were in a very bad condition and required cleaning.
The board spent a few minutes considering sanitary and health matters, and then adjourned.

WILL DISCUSS RAILROADS.
THE TAYLOR BILL TO BE TAKEN UP BY BUSINESS MEN—COMMITTEES FOR 1889.
At the regular monthly meeting of the Business Men's Association last evening, President Hodson presided. Mr. Hodson stated that he would have the formality of a speech and would announce the committees for the ensuing year. The following are the committees:
By Laws Ogden H. Fethers, John Merzies, M. S. Pritchard.
Public Improvements—Phiny Norcross L. B. Carle, Hiram Merrill.
Merchandising—Chas. B. Conrad, Joseph P. Baker, J. L. Ford.
Transportation—A. M. Valentine, O. E. Banous, O. C. Ford.
Legislation—E. F. Carpenter, M. G. Jeffers, George G. Sutherland.
Manufactures—Fenner Kimball, Oscar F. Nowlan, R. J. Richardson.
Licenses—John G. Rexford, O. Wells Ray, Leod H. Becker.
Library and Literature—B. B. Eldredge, Stanley B. Smith, Albert Kavalage.
Hon. Cyrus Miner was elected a member of the association.

The following resolution was introduced by Mr. A. M. Valentine:
Resolved, That the passage of the bill recently introduced by Senator Taylor, entitled a bill to regulate railway traffic, would in the judgment of this association be prejudicial to the best interests of this state and that the passage of any bill of like character is wholly unadvised and inexpedient.
Resolved, That copies of this resolution be sent to our representative in the legislature and that they be requested to oppose its passage.
After some discussion it was decided to adjourn until Monday evening Feb. 18 for the special purpose of discussing the bill. The officers of the roads doing business in the state and Senator Taylor to be notified of the meeting and invited to be present and take part in the discussion.

What a Dance!
Infused with fever, hot head and foul breath.
With stomach disorder—was sick unto death.
I bore it a week—surely I was a dunce.
Then I took a few "Pellels"—they cured me at once.
What a dunce, indeed, to neglect such a remedy and suffer a week, when quick relief could have been found in Dr. Fiebro's Pleasant Purgative Pellets.

COMMON COUNCIL.
NO RECORD—ADJOURNED UNTIL THURSDAY EVENING.
Last evening at 7:30 o'clock when Clerk Fenton called the common council to order and called the roll only Aldermen Baker, Hanthorn and Horn answered to their names.
Ald. Horn moved that the council adjourn until Thursday evening at the usual hour, remarking that the special committee was ready to report the proposed charter amendments for consideration. The motion was adopted and the council declared adjourned until that time.
A few minutes after this Aldermen McLean and Casey came into the room, and few moments later City Attorney Doe followed.

FOR OLD SOLDIERS.

Circular from the Second Auditor Relating to Extra Duty-Pay, Mileage, etc.

Arranging For the National Grand Encampment at Milwaukee in August.

THESAUURY DEPARTMENT,
SECOND AUDITOR'S OFFICE,
WASHINGTON, D. C., January 18th, 1888.
SIR:—In a recently published letter of Mr. J. M. Dalzell, a claim agent of Caldwell, Ohio, and in his subsequent utterances through the press, he asserts that he has discovered some new laws in relation to the allowance of mileage (5 cents a mile) to soldiers while on furlough, etc., and, also, ration pay to the same in similar cases, or where soldiers were prisoners of war, and, lastly, extra duty pay between October, 1862, and April, 1863. These statements are so inaccurate, and have misled so many soldiers and claimants that it will be to their advantage to read the following explanations and save themselves and this department unnecessary trouble and expense in conducting useless correspondence.

First. There is no law providing for the payment of "mileage" at 5 cents a mile, or otherwise, to any soldier while on furlough, or while in the service; neither has such pay ever been allowed or paid by the acting officers in any case. The act applicable to the payment of transportation, pay and subsistence of volunteer soldiers of the late war, when they were discharged and sent home, was passed July 22, 1861 (over 27 years ago), and it has been in operation ever since its passage, and it is still in force. But must be apparent to every one that nearly all soldiers who were entitled to such pay have already received it, or an equivalent for it. A very large majority of the soldiers were actually furnished transportation by the government when they were sent home to be mustered out (in those cases the soldier has no claim whatever for any further allowance on this account), and no law is only in exceptional cases that a soldier may have a reasonable claim for transportation—pay to his place of enlistment when discharged and sent home, and even then he must furnish affirmative satisfactory evidence that he applied to the government for his transportation but was refused or could not obtain it or avail himself of it, and he must fully set forth the facts showing why he was obliged to pay his own fare home.

Second. In regard to extra-duty pay granted to enlisted men who were detailed to perform special and extra work as blacksmiths, carpenters, skilled mechanics, teamsters, etc., nearly all those men so enlisted were either paid such pay while in the service or on furlough, when discharged; furthermore, section 35, act of March 3, 1863, forbids the payment of extra duty pay to volunteers for services after said date, so that practically it can now only be allowed in exceptional cases.

Third. The act granting rations to soldiers who were prisoners of war was passed July 25, 1862, and that granting the same pay to their heirs (not more than brothers and sisters) was passed March 2, 1867, and these acts are still in force, but nearly all those entitled to this pay have long since been paid it; and so in regard to the allowance of ration or subsistence pay to soldiers while on furlough.

It will thus be seen that the statements made by Mr. Dalzell in these matters are inaccurate and misleading. They will only excite false hopes and expectations in claimants, and cause them and the government useless trouble and expense.

W. A. DAV,
Second Auditor.

ARMY AND NAVY REUNIONS.
It has heretofore occurred at G. A. R. National Encampments, survivors of the same regiment, battery or boat who are in attendance and who have not met since the war, are unable to find each other by reason of having no designated place or time to rally, and comrades living thousands of miles apart learn too late of the others attendance at the same encampment. To avoid such conditions at the coming encampment in August, there will be a reunion of every regiment, boat and battery that served on the Union side, and the time and place of such meeting will be announced in advance to every veteran who sends name, regiment, battery or boat and postoffice address to C. K. FIER, Secretary, Milwaukee, Wis.

Officers of regimental or other reunion societies should give early notice of meeting and if sent to above address, same will be published in the official encampment bulletin and reach every soldier and seaman's notice.

THE NATIONAL G. A. R. ENCAMPMENT BULLETIN will be published regularly, and contain all official information concerning the next and the largest gathering of Soldiers and Sailors and their friends, since the war. The Naval Battle in Milwaukee Harbor, alone, will cost over one hundred thousand dollars to produce. Every issue of this paper will be mailed FREE to all Soldiers and Seamen who send their names and P. O. address to C. K. FIER, Secy., Milwaukee, Wis.

FEBRUARY TABLE TALK.
Table talk for February contains a dainty list of contents over which its readers will be excusable in smacking their lips. We like Table Talk. We like its subject and like the manner in which it handles it. Nor should we think its task an easy one, however delightful it may be in other respects. The palette is unquenchable; flickle as the wind and more unsteady than a weathercock in a March blizzard. Not one of them is satisfied long with the same dish, no matter how delicious, nor can any two of them always agree upon what constitutes deliciousness. To humor both extremes, and at the same time cater to the great bulk of humanity that lies between, is the task of Table Talk. Not an easy one, as we have said, and therefore we congratulate Mrs. Rorer upon the skill with which she gets around it.
